PROFESSIONAL SUMMARY

Full Stack Developer with 2+ years of hands-on experience building scalable web applications using Node.js, Express.js, React.js, and MySQL. Strong experience in developing RESTful APIs, frontend dashboards, payment integrations, automation workflows, and CI/CD pipelines. Proven ability to deliver production-grade systems used by 1,000+ users, optimize performance, and automate manual processes in SaaS environments.

WORK EXPERIENCE

Full Stack Developer - Hostzop Cloud Technologies Pvt. Ltd. Aug 2023 – present I Chennai

- Designed and developed RESTful APIs using Node.js and Express.js for billing, authentication, service provisioning, and user management.
- Built and maintained full-stack SaaS dashboards using React.js and MySQL, supporting 5,000+ active users.
- Implemented secure authentication, middleware, validation, logging, and centralized error handling.
- Integrated Stripe and Razorpay payment gateways for real-time payment verification and automated service activation.
- Automated cloud VM/VPS provisioning workflows, reducing deployment time from 40 minutes to 5 minutes.
- Developed cron-based automation scripts for IP monitoring, security enforcement, and VPS suspension/unsuspension.
- Integrated Slack Webhooks for real-time alerts on form submissions, security events, and system actions.
- Designed and implemented CI/CD pipelines using GitHub Actions, enabling automated deployments for React, Node.js, and PHP projects.
- Deployed and monitored applications on Linux servers, ensuring uptime and production stability.

Full Stack Developer Intern – Aspire Systems Apr 2023 – Jul 2023

- Engineered a real-time Face Recognition Attendance System using Python and computer vision libraries (OpenCV/cvzone, NumPy), achieving automated user identification.
- Developed and serialized a custom ML model using Pickle for efficient facial feature matching and user authentication.
- Designed and implemented a data pipeline to push recognized user data to Firebase, enabling instant updates and seamless integration with the user interface.
- Applied rigorous te sting and debugging, reducing system errors by 40% and increasing overall reliability by 25%

EDUCATION

Mohamed Sathak College of Arts and Science – Chennai
Bachelor of Computer Applications (BCA) – (2019 - 2022)
Sypa IIE
Diploma in Counseling Psychology (Online Course) (2020 - 2021)

CERTIFICATIONS

JavaScript Course – Udemy
Full Stack Development – Offline Training
Fundamentals of Cybersecurity – upGrad
UX Design Process in Empathize , Define and Ideate – Google
Back-end Development – Meta

AWARDS & ACHIEVEMENTS

- Best Performer Award during internship at Aspire Systems for technical contribution and reliability.
- Led a 10-member team during NCC Camp, demonstrating leadership, coordination, and accountability.

SKILLS ----------

Frontend : React.js, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, D3.js, Vite, Fetch API, Typescript

Backend : Node.js, Express.js PHP, RESTful APIs, Authentication & Authorization ,Python

Databases : MySQL, MongoDB, Firebase

Integrations : Stripe, Razorpay, MasterGST, API, Slack, Webhooks

DevOps & Tools : Git, GitHub, CI/CD (GitHub Actions), Linux, Cron Jobs, Nginx, Apache, cPanel, PlesK

Performance & State : React Hooks Context API Custom Hooks Code Splitting Lazy Loading Framer Motion

PROJECTS ----------

Hostzop SaaS Ecosystem (Client & Reseller Platforms)

- Architected and built the frontend and backend for white-labeled SaaS platforms used by 1,000+ users.
- Developed interactive dashboards using D3.js to visualize billing, usage, and server metrics.
- Implemented scalable state management using React Context API and custom hooks.
- Optimized application performance using memoization (useMemo, useCallback), achieving a 35% improvement in key
- workflows.
- Enabled white-label support with custom domains and branding.

Reseller Cloud Management Platform

- Built a full-stack reseller system allowing users to purchase, manage, and resell VM infrastructure.
- Implemented credit-based billing, monthly recurring subscriptions, and usage tracking.
- Developed admin and reseller dashboards for monitoring profits, usage, and client activity.
- Integrated secure authentication and role-based access control.

E-Invoicing Automation System

- Integrated MasterGST API into an existing billing system to automate GST e-invoicing.
- Implemented real-time GSTIN and invoice validation, ensuring 100% compliance.
- Eliminated 9+ hours/week of manual finance work and reduced filing errors to zero.

Spotcard – Digital Invitation Platform

- Developed a mobile-first digital invitation platform supporting events and business use cases.
- Built backend APIs for storing user profiles, media, and event data.
- Implemented interactive features such as maps, schedules, calendar integration, and media galleries.

CI/CD & Deployment Automation

- Designed GitHub Actions pipelines for automated build and deployment workflows.
- Implemented SSH-based deployments to production servers, eliminating manual FTP usage.
- Reduced release cycles by 5× and deployment-related issues by 90%.

AI-POWERED SUPPORT AUTOMATION SYSTEM (CURRENT PROJECT)

Python, FastAPI, LangChain, RAG, Pinecone, FAISS

- Developing an AI-driven support system to assist clients with server and application issues in a SaaS environment.
- Implemented Retrieval-Augmented Generation (RAG) using LangChain with Pinecone and FAISS, trained on internal knowledge bases.
- Built backend services using FastAPI (Python) for AI inference and support workflows.
- Enabled controlled automation for common setup and troubleshooting tasks.
- Integrated an automatic ticket escalation system when issues cannot be resolved by AI

LANGUAGES ----------

- English (Fluent),
- Tamil (Native),
- Hindi
